THE SERENES BY MAHINDRA LIFESPACES

Open Plan

With the aim of creating exclusive spaces, Mahindra Lifespaces creates properties adorned with a privately landscaped area. The freedom and luxury of space is offered in the midst of this quiet and personal space in this collection of homes. Based in Alibaug, the property blends with the natural landscape

of the area. Targeting a niche market, all interiors can be customised according to the needs of the consumers. The individual villas have a lot of space within, like various rooms and open plans. The outdoors are in the form of terraces, balconies, patio spaces or courtyards, offering sit-out areas to suit varying needs. ■
